The Banks Association of Turkey Risk Center

(1) The unique number of individuals who are transferred to legal follow-up for unpaid consumer loans and credit card debts in the relevant month.

(2) The unique number of individuals who are transferred to legal follow-up "only for consumer loans", "only for credit card debts" and "both consumer loans and credit card debts" in the relevant month.

(3) The totals of the months are not equal to the general totals at the bottom of the table. The difference is due to the fact that "a person" can be counted as one in multiple months, for different cases. Therefore, although this person can be counted in multiple months, he is counted "only once" in the general total at the bottom of table.

(*) Banks and financial institutions whose operating licenses have been revoked continue to report their loans and receivables to The Banks Association of Turkey Risk Center, so they are included in the report.
