*(2) Displays the amount of paid checks by the date of submission.*

*(3) Displays the unique number of the paid check drawers by the date of submission. The total of the months is not equal to the general total at the bottom of the table. The difference is due to the fact that "a person" can be counted more than once in different months, but "only once" in the general total at the bottom of table.*

*(*) According to the related regulation, paid checks which have a value over 1.000.000.000 TL are decided to be included into the statistics from February 2015. Therefore, "Amount" of paid checks was revized according to this regulation.*

*In general, the figures in the table can be updated according to the notification of members.*
