The Banks Association of Turkey Risk Center

(1) Displays the total number, amount and the unique number of drawers of presented checks by the date of submission.

(2) Displays the total number, amount and the unique number of drawers of returned checks by the date of submission.

(3) Displays the total number, amount and the unique number of drawers of "returned checks paid" after they are sent into the process of "returned checks" by the date of submission.

(4) The total of the months is not equal to the general totals at the bottom of the table. The difference is due to the fact that "a person" can be counted more than once in different months, but "only once" in the general total at the bottom of table.

(7) Returned checks over 1.000.000.000 TL are excluded.

(7*) According to the related regulation, returned checks which have a value over 1.000.000.000 TL are decided to be excluded from the statistics starting February 2015. Therefore, "Amount" of presented checks to banks, "Amount" of returned checks and related ratios are revised.

(7**) Data until June 2013 has been prepared by Central Bank of Turkey, afterwards, by The Banks Association of Turkey Risk Center according to the 1st Article of the Law Number 5411.

In general, the figures in the table can be updated according to the notification of members.

The number and amount of presented and returned checks data of "Interbank Check Clearing Houses" (ICH) can be accessed from the link below.
